Ehud,

Just wanted to let you know that the first phase of the agreement with El Op was concluded last week. Now we are waiting for the approval of the office of Antitrust. After his approval they are obliged to invest in total additional $7Million in equity and R&D money.

Since the process with the Antitrust office can take several months, we are looking now for additional 2-3 million USD.

Just in case…..

Brgds, Meir.
